| <p><b>PGA-1100.0010</b><br/>Diode Logic Unit</p>    | <p>Used in installations with more than one breaker and more than one Littelfuse Arc-Flash Relay. It separates the trip paths, so the breakers can be tripped independently from each other.</p> <p><b>Full datasheet and ordering information available at <a href="http://www.littelfuse.com/pg1100">www.littelfuse.com/pg1100</a></b></p> | <p><b>PGR-8800 D0920</b>      <b>AF0500 D1000</b>      <b>AF0100</b></p> |         |           |          |       |           |     |   |   |  |        |          |            |        |          |  |        |          |            |      |          |  |        |          |  |      |          |            |      |          |  |      |   |  |

| <p><b>V150LA10AP</b><br/>LA Varistor</p>    |                        | <p>The V150LA10AP, a transient voltage surge suppressor, is a radial leaded varistors (MOVs) that is designed to be operated continuously across ac power lines. This UL Recognized varistor requires very little mounting space.</p>   |   |   |          |  | <p><b>Any of our products that operate below 150 V ac or 200 V dc.</b></p> |                    |                         |          |          |          |          |          |   |  |  |
