

SP6003 Series 7pF EMI Filter Array with ESD Protection

Description

Littelfuse's SP6003 integrates 4 and 6 EMI filters (C-R-C) into a small, low-profile μ DFN package with each filter providing greater than -20dB attenuation at 1GHz. Additionally, each I/O is capable of shunting ± 12 kV ESD strikes (IEC61000-4-2, contact discharge) away from sensitive electronic components. The performance of this small, slim design makes it extremely suitable for mobile handsets, PDA's, and notebook computers.
